## DIVE CENTER EDITION

Imagine being able to film discovery dives **without having to focus on your camera.**

Imagine being able to offer your clients wonderful films of their dives **without having to film it yourself.**

Imagine being able to debrief your students with a video **filmed autonomously during their training.**

**iBubble lets you to do all of that.  
And much more.**

iBubble is the first autonomous diving drone that follows divers and captures beautiful footage, hands-free. The **Dive Center Edition** was carefully designed in partnership with dive center operators in order to provide the best product, suited to your needs and those of your clients.

# MAIN FEATURES

## ENTIRELY AUTONOMOUS

iBubble follows and films your entire diving session, up to 60m / 195ft depth.

## 1H BATTERY LIFE - REPLACEABLE BATTERY

Dive and film for hours:  
Easily replace the battery and enjoy  
your dives all day long.

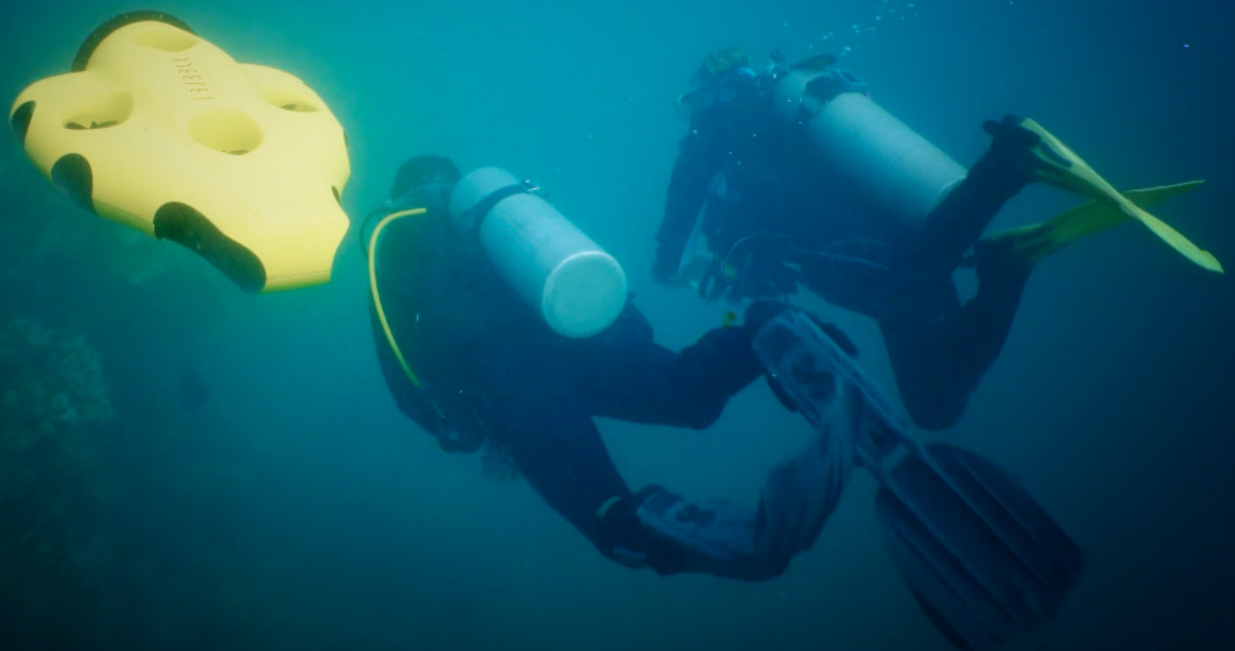

## REMOTE FILMING SCENARIOS

With its wireless bracelet, you are able  
to switch to different filming scenari-  
os, with professional angles.

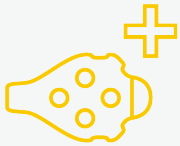

## ENVIRONMENTALLY FRIENDLY

The marine fauna & flora won't be both-  
ered by iBubble:  
The drone uses sonar technology to  
avoid hitting coral or reefs, and works si-  
lently on safe emission levels for animals.

# DIVE CENTER EDITION **EXTENDED FEATURES**

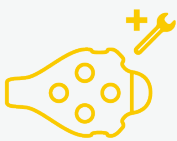

## **REINFORCED HULL**

A hull designed for daily and intensive use.  
Take iBubble wherever, with whoever, without any worries.

## **SIMPLIFIED BRACELET**

A reinforced bracelet that anyone can use right away.  
No need for special instructions: equip it & start filming right away.

## **EASY MAINTENANCE**

The Dive Center Edition is especially designed to facilitate the maintenance due to intensive use.

# THE OPTIONAL **EXPLORER PACK**

## **CONTROL IBUBBLE FROM THE SURFACE**

Ever wanted to explore multiple diving spots in a day,  
or see what kind of fish is swimming under your feet  
without getting them wet?  
The explorer is made for you.

Plug the remote to iBubble and control it from afar, up  
to 100 meters!

# AN ASSET FOR EVERY DIVE CENTER

More than an underwater drone, iBubble will be your partner and an essential tool for you and your clients.

## ENTIRELY AUTONOMOUS

You'll be able to fully focus on your clients while iBubble does the rest.

## OFFER AN INNOVATIVE PRODUCT

Use the newest diving technology in order to offer dives a step ahead of the others.

## SOURCE OF INCOME

By offering iBubble as an exclusive service, the initial cost will quickly be surpassed by the additional revenue!

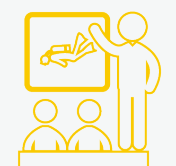

## PROMOTE YOUR BUSINESS

Use iBubble to produce exclusive films of your dive center's sessions. With such an innovative and unique product, clients are sure to spread the word!

## FILM FIRST DIVES

Film your clients' first dives or discovery dives without hassle with iBubble, allowing you to fully focus on them.

## VIDEO DEBRIEFING

By using iBubble's footage during training, you will be able to debrief your students much more precisely.

# FILMING YOUR DIVES IN ANY CIRCUMSTANCES

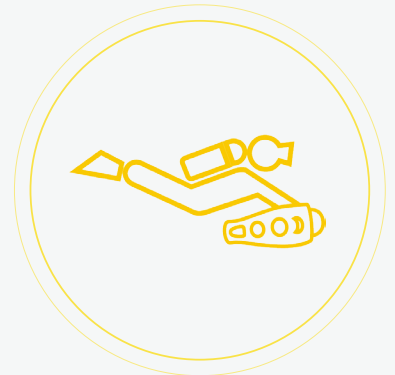

The strength of iBubble is its ability to film your underwater experience from every angle. Each and every dive will be a unique adventure thanks to the many scenarios iBubble has to offer!
